27. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

Sl. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Waste Management	R	Waste management is a critical responsibility across industries, and particularly so for the electronics sector, which generates e-waste during its production process. Inadequate handling and disposal can result in environmental contamination, underscoring the necessity for strict adherence to applicable regulatory requirements.	A company mitigates waste management risks by implementing strict e-waste segregation and recycling protocols. It ensures compliance with environmental regulations and invests in employee training for proper disposal practices. Additionally, partnerships with certified waste management vendors help promote sustainable resource recovery.	Negative Implications
2	Water Management	O	The efficient utilisation of water resources constitutes a key aspect of a company's social and environmental responsibility	The Company uses water-efficient technologies and recycling wastewater wherever possible. Compliance with regulatory standards and employee awareness programmes further ensure responsible water conservation and sustainable usage.	Positive Implications
3	Health & Safety	O	Ensuring the health and safety of employees and workers is of paramount importance. In the electronics industry, this responsibility is further heightened due to the constant interaction of personnel with machinery and equipment.	The Company enforce strict safety protocols and provide regular training to employees on machinery handling and emergency procedures. We ensures the use of protective equipment and conducts routine workplace inspections to identify and eliminate hazards. Compliance with industry safety standards helps maintain a safe and healthy work environment.	Positive Implications
4	Product design and Innovation	O	Operating within the electronics industry necessitates ongoing innovation to align with advancing technologies and the increasing demand for energy-efficient lighting solutions. Therefore, consistent investment in research and development becomes imperative.	The Company invest in advanced R&D and stay aligned with emerging technologies and market trends. We follow a structured design validation process, including prototyping and rigorous testing. Collaboration across cross-functional teams ensures products meet quality, safety, and performance standards.	Positive Implications
5	Corporate Governance	O	Robust corporate governance forms the bedrock of a company's stability. In its absence, the Company risks statutory violations, legal disputes, and incurring undue fines and penalties.	We establish a strong internal control framework and adhering to transparent reporting practices. Also ensures compliance with legal and regulatory requirements through regular audits and board oversight. Clear policies on ethics, accountability, and stakeholder engagement further strengthen our governance standards.	Positive Implications

7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure) In alignment with the sustainability commitments of our key customer, Signify (Philips), we are actively transitioning away from plastic packaging and adopting environmentally sustainable packaging alternatives across our operations. Our manufacturing processes are designed to minimise water consumption, and we continue to maintain strict adherence to Zero Liquid Discharge (ZLD) standards, ensuring responsible water management. The adoption of low conversion, energy-efficient, and environmentally responsible technologies has presented both technical and financial challenges. The upgrade of machinery and optimisation of processes in pursuit of our sustainability goals requires significant capital investments and specialised technical capabilities. Despite these challenges, we remain steadfast in our commitment to integrating low conversion technologies, aiming to significantly reduce our energy consumption and lower greenhouse gas emissions. Furthermore, we are investing in the development of advanced technologies that enable higher illumination efficiency with minimal energy usage, particularly in products manufactured for our ODEM partners, thereby contributing to a lower environmental footprint across the value chain.

Energy intensity per rupee of turnover (Total energy consumed/Revenue from operations) (MJ/Lacs)	0.003882665	0.0037297005
Energy intensity per rupee of turnover adjusted for Purchasing Power Parity (PPP) (Total energy consumed/Revenue from operations adjusted for PPP)	0.089	0.085
Energy intensity in terms of physical output		
Energy intensity (optional) – the relevant metric may be selected by the entity		

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No

Note 1: The energy consumption reported in the table above includes data pertaining to Owned manufacturing sites.

Note 2: For “intensity per rupee of turnover”, total revenue from operations has been considered as turnover as per the Audits Standalone Financial Statements.

Note 3: The Purchasing Power Parity (PPP) factor considered is 22.88 as recommended by OECD (Organisation for Economic Co-operation and Development)

2. Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

No

3. Provide details of the following disclosures related to water, in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency?

(Y/N) If yes, name of the external agency.

No

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your Company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Committed to environmental responsibility, the Company follows safe disposal practices for all types of waste arising from its operations. Hazardous waste and E-waste generated during manufacturing are managed through certified recyclers approved by the government. Given the nature of our electronics manufacturing processes, the use of hazardous or toxic substances is negligible.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

S.No.	Location of operations/offices	Type of operations	Whether the conditions the reasons thereof and corrective action taken, if any, of environmental approval/clearance are being complied with? (Y/N) If no
Not Applicable			

12. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No.	Date	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/No)	Relevant Web-link

	FY 2024-25	PY 2023-24
Directly sourced from MSMEs/ small producers	15.49%	43.51%
Directly from within India	9.57%	4.59%

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent/on contract basis) in the following locations, as % of total wage cost.

Location	FY 2024-25	PY 2023-24
Rural	0.00%	10.10%
Semi-urban	0.00%	0.00%
Urban*	14.75%	15.22%
Metropolitan*	1.26%	1.53%

(Place to be categorised as per RBI Classification System - rural/semi-urban/urban/metropolitan)

*Job creation here taken as vacancies arises and filled by new employee/worker

PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner
Essential Indicators

- Describe the mechanisms in place to receive and respond to consumer complaints and feedback.
The Company does not directly interact with the end customers as it works on B2B model.
- Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a percentage to total turnover
Environmental and social parameters relevant to the product	100.00%
Safe and responsible usage	100.00%
